

IDAHO SPACE GRANT SCHOLARSHIP

NASA IDAHO SPACE GRANT CONSORTIUM OFFERS \$1,000 SCHOLARSHIP

Through a donation from the National Space Grant Foundation, ISGC is awarding a \$1,000 scholarship to an incoming first year Idaho college or university student who will be initiating pursuit of a STEM Education degree in the next year.

Our mission with this scholarship is to encourage students who have an interest in STEM to share their passion and goals with us.

We recognize that students from all backgrounds have an interest in STEM disciplines and could benefit from this scholarship. We would like to support a student that may be at a disadvantage when compared to their peers. We encourage students with exceptional needs, underrepresented individuals, former military members, and veteran families to apply.

The application asks for you to share how your life will be improved by this scholarship and to reflect on hardships you have overcome.

This scholarship can be used for educational travel, STEM experience, training, or school.

The scholarship application requires the following:

- Resume
- Essay 1: *In 500 words or less, describe a time when you faced a significant challenge or obstacle and how you overcame it. How has this experience impacted your personal growth and development?*
- Prompt 1: *How have your cultural or socioeconomic background, personal experiences, or other factors influenced your academic journey and goals? How do you see your unique perspective contributing to your chosen field of study or future career plans? Submit your answer in the following format options: A brief written response, in 500 words or less -OR- A multi-media piece, in 5 minutes or less (file limit to 30 MB)*

Application DUE by Midnight MAY 31st, 2023
